- Tamil: Fluent

PROFILE SUMMARY

Self-motivated Web Developer with practical experience in HTML, CSS, JavaScript, Laravel, PHP, and MySQL. Skilled in building responsive websites, dynamic dashboards, and real-world applications. Proven track record in delivering client projects and CRUD systems. Eager to contribute technical expertise to impactful development teams.

PROJECTS

Real Estate Application (Laravel)

- Developed a Laravel-based real estate platform with property listing features.
- Implemented authentication, and dynamic property filtering.
- Integrated MySQL for data management and PHP for backend logic.

Premium Subscription Plan System (Laravel)

- Created a Laravel project for managing premium subscriptions with different plan levels.

CRUD Application with Role-Based Access (PHP & MySQL)

- Built a CRUD system with authentication and role-based access (Admin, Creator, Editor, Delete).
- Used MySQL for database storage and PHP for backend logic.

Sales Dashboard (PHP, MySQL)

- Designed a dashboard with dynamic menu options and data visualization.
- Implemented user-based permissions and access controls.

GPA Finder (JavaScript, HTML, CSS)

- Developed a GPA calculator allowing users to input marks and credits.
- Implemented features like reset, find, and instructions section. Stored calculation history in local storage until manually deleted by the user.

Sneha's Beauty Parlour (Freelance)

- Developed & deployed snehasbeautyparlour.in
- Animated landing page, service showcase, and customer reviews

Tax Finder (JavaScript, HTML, CSS)

- Built a tax calculation tool that determines the tax based on annual income and selected tax rates.
- Integrated a mini calculator with Pi, E, and power functions.
